SUMMARY

Frontend Engineer with 2+ years of hands-on experience across a full-time role and freelance projects, building production web apps with React.js, Next.js and TypeScript. Built a customer-facing travel booking platform, a full bilingual (Arabic/English, RTL) ERP & POS system, a no-code website builder and an analytics dashboard. Focused on reusable component architecture, clean REST API integration, performance optimization, accessibility and responsive, pixel-perfect UI built from Figma designs.

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js (App Router, SSR/SSG)
Styling & UI: Tailwind CSS, Material UI, Bootstrap, Responsive Design, Web Accessibility (a11y), Figma
State & Data: Redux Toolkit, Zustand, Context API, React Hook Form, REST APIs, Axios
Testing & Tools: Jest, React Testing Library, Git, GitHub, Vercel, Agile/Scrum
Other: Internationalization (Arabic/English, RTL), Performance Optimization, Data Visualization, PWA

PROFESSIONAL EXPERIENCE

Junior Frontend Engineer — Rehletna (Travel Platform) Sep 2025 – Present

- Develop and maintain Rehletna's customer-facing travel website and online booking experience in an Agile/Scrum frontend team.
- Built **40+ reusable, accessible UI components** with React.js, TypeScript and Tailwind CSS, improving design consistency and cutting duplicated code across the platform.
- Translate Figma designs into pixel-perfect, responsive pages that work across desktop, tablet and mobile.
- Integrate REST APIs and manage dynamic data across multi-step booking flows, search results and content pages.
- Improve load speed with Next.js SSR/SSG and optimized images; write unit and component tests with Jest and React Testing Library.
- Collaborate with backend developers and team leads in sprint planning and code reviews to ship production-ready features.

PROJECTS & FREELANCE WORK

Veendra — Multi-Company ERP & POS System | Live demo Freelance · 2 months

React.js, Tailwind CSS, REST API

- Built the full frontend for 8+ business modules: POS, sales, purchases, returns, inventory, warehouses, safes and customer/supplier debts.
- Added sales analytics and financial reports, full Arabic/English RTL support, dark mode and installable app (PWA).

LaunchCraft — No-Code Website Builder | Live Project

Next.js, TypeScript, Tailwind CSS, Zustand, REST API

- No-code platform for creating, customizing and publishing portfolio and restaurant websites from ready-made templates and themes.
- Built the interactive page editor and template/theme customization, managing editor state with Zustand.

Spectra — Advertising Agency Dashboard | Live demo Freelance

Next.js, TypeScript, Tailwind CSS, REST API

- Management dashboard for clients, campaigns, services and business data with interactive charts and real-time analytics.
- Designed a reusable, typed component architecture with protected routes and optimized responsiveness across devices.

Elegant — E-commerce Web App | Live Freelance

React.js, Tailwind CSS, React Router, Context API

- Responsive, accessible store with product categories, filtering and a shopping cart, using Context API for global state.

EDUCATION & TRAINING

B.Sc. Computers and Information Technology — Computer Science 2020 – 2024
Modern University for Technology & Information (MTI)

React Frontend Developer Program — DEPI (Digital Egypt Pioneers) Jun – Dec 2025
Funded by MCIT; 93 hrs technical training plus soft skills, Business English and freelancing.

Front-End Web Development with React — Route Academy (96 hrs) Jun – Dec 2023

LANGUAGES

Arabic: Native | **English:** Very Good
